The figure consists of seven diagrams arranged horizontally, each representing a different size of a staircase pattern. The first six diagrams (6x6, 6x7, 6x8, 6x9, 6x10, 6x11) show a staircase shape built from yellow cells in a grid. Red numbers 'T', 'U', and 'B' are placed in specific cells: 'T' at the bottom left, 'U' in the middle of the staircase, and 'B' at the top right. The last diagram (9x9) shows a similar staircase pattern but without the red labels.
